## STOREY GALLERY goes offsite

Storey Gallery will be moving out of the Storey Institute  
early next year for the refurbishment of the building.  
We will be delivering '**Storey Gallery INSIDE OUT**', a  
series of projects that will take place outside the gallery.

Web Site:  
[CLICK HERE](#) for exhibition details.

The first of these offsite projects has already started. We have commissioned three artists, all from the North-West of England, to develop new work that relates to buildings, architecture and the Storey Institute in particular. The artists are Jane Chavez-Dawson, Jason Minsky and John Gilbert. These artists will be working in very different ways and in a variety of locations. The projects are open-ended, allowing each artist to produce unpredictable results. Jason Minsky is interested in the statue of Queen Victoria and Prince Albert that can be found watching over the North end of the Storey Gallery. Jason is currently visiting statues of Queen Victoria all over the UK and sending 'wish you were here' Polaroids back to Prince Albert at the Storey Gallery.
